## GOOD PLUMBING

Installed on Sanitation lines is what you want and need.

Save health of your family, it is a pleasure, cost no more than poor plumbing. Let us explain plans---we will save you money.

LIVE AND LET LIVE FOLKS.

Feed and crushed Oyster shell for the Chickens. Hudson, Hughes & Farnau.

The high price of onions is very agreeable to the olfactory nerves to say the least of it.

If a man has a mortgage on his house no one need know it unless he has an automobile.

Those "Timely Suggestions" of J. E. Stormes seen on page two, are attracting the attention of many of our readers, thereby saving them money, so they say.

No overt act has been committed by Germany, since her famous note of Feb. 1st, that would lead to war on the part of the United States. Each day that passes without such offense strengthens the hope that war may yet be averted.

On all sides one hears that back yards are going to be utilized for kitchen gardens right up to the doors of their namesakes, and beans, peas, cabbage, onions, and suchlike, shall grow and flourish in the plentifulness which makes for a cheaper living.

The recapitulation of Jessamine county's assessment for 1917 taxation has been completed and the Journal appended a list as shown by the assessor's book. The total assessed valuation of real estate and other property after exemptions, was \$7,795,650.

Miss Mary E. Sweeney, head of the department of Home Economics at Lexington says that when people pay high prices for potatoes they are getting "mighty little for their money." She suggests the use of rice and butterbeans. Milk, she advises, can fulfill many purposes for which eggs are used.

No one could possibly wish any more cold weather, but the first three days of March will have to be, at least, unfavorable, to keep up the old familiar remark, "come in like a lion, go out like a lamb", for everybody wants to begin gardening early this spring to see what may be done in that direction to reduce the high cost of living. It hurts the pride of the richest pocket book to have to buy cabbage by the pound.

## ANOTHER BREAKFAST BACON TALK

Braces a person up for the work of the day. Nothing else is so satisfying, nothing else supplies an equal amount of energy to "do things"

PROVIDING--- the Bacon is mild, sweet and nicely streaked with fat and lean.

Now you might think it was an easy matter to find such Bacon---BUT IT ISN'T. Most Bacons are too salty, or too fat or too lean, or too something or other. If you prefer something just right we can give it to you.

Our Bacon can be served to children as well as grown-ups. It can be enjoyed by the office worker as well as the outdoor laborer. Try an order.

Theo Currey.

FRESH FISH AND OYSTERS.

## WHERE IS THE FAULT?

Quite a number of people living on the Lexington road have complained that they are not getting their paper regularly.

## HORSES AT AUCTION

Mules have gotten so high, those that are not already supplied, can have the opportunity of buying a good work horse at public auction next Tuesday at W. B. Burton's barns. Read the advertisement on the back page of this issue.

## TAKES OATH ON SUNDAY

It has been definitely decided that President Wilson will take his new oath of office in private in the White House Sunday. A State Department ruling made clear that the President could wait and not take oath until March 5th, if he chooses to do so.

## OUR FORCE INCREASED

A valued typist and expert job man has been added to the Record office in the person of Mr. Ennis Perkins of Georgetown. If his works come up to his looks and gentlemanly bearing, we are going to nail him to a stool and ask others to keep hands off. Our thanks for this new acquisition are due Mr. Jess Alverson of the Georgetown News.

## WELCOME DAUGHTER

Cards have been received announcing the arrival of Josephine Davis in the home of Mr. and Mrs. Charles Davis of Chattanooga Tenn. The proud parents are no prouder of this acquisition than is the Grandmother Mrs. Lizzie Joseph. The Central Record extends congratulations.

## COLORED MAN DEAD

Uncle Seymour Hyatt an honored colored citizen of Lancaster died at his home Sunday night. Uncle Seymour had for years been the "grave digger" at the Lancaster cemetery, but the task he so often performed for others has been performed for him. "Sic transit gloria mundi". No doubt "Uncle Seymour" had often meditated upon the uncertainty of life and the great leveler-death as he went about his daily work. "Death makes us equal, the high and the low." Peace to his ashes.

## MADE MANY FRIENDS

The new owners of the Interior Journal, Messrs J. H. Wright and E. C. Walton, were shaking hands here last Monday and meeting with a hearty welcome. The junior member made a favorable impression here and we predict for him the same popularity and cordial welcome that has always been accorded the senior member, Mr. Walton. Go to it boys, the "water is fine" and we greet you most heartily and trust that your highest anticipations for the success of the Interior Journal may be fully realized under your leadership.

## EAST.

Mr. Owen East died at his home at Buckeye, Feb. 23rd, and was laid to rest in the Buckeye cemetery Sunday. Mr. East was born Oct. 13 1853, in the section where he has always lived and where he was buried.

He leaves a wife, ten children, three brothers and one sister to mourn his loss, his brothers are: Messrs Cal, Dan and Tom East, his sister is Mrs. Sallie Hurt.

Mr. East had been in poor health for some time, but death came unexpectedly as he was taken suddenly ill while watching his boys plow, he was taken to the house and died the following day. Much sympathy is extended the family in the loss of their loved one.

## AUTO'S IN DEMAND HERE.

Last Monday brought almost as many auto buyers to town, as auto buyers and nearly as many changed hands. The result of the day's sale being fifteen by our local dealers. Haselden Brothers who handle the popular Ford, succeeded in finding new homes for eight and report it one of the best days since they have had this agency. Kinnaird Bros, didn't let any grass grow under their feet and at the end of the day had placed five of their handsome cars, three Hupmobiles going to John Cress, W. O. King and G. B. Swinebroad. Their new Dodge car attracted much attention and one of these was sold during the day to Mr. Arch Stevens. Hon. H. C. Kauffman bought a slightly used Ford car from Kinnaird Brothers, formerly the property of Prewitt Thompson. Walter Hammack who has the agency for the Chalmers, sold a handsome touring car of this make to Mr. J. E. Anderson, of Point Leavell, and a Maxwell to another party, whose name we did not get.

All these agencies are carrying advertisements in every issue of the Record which are bringing them good results.

## EUGENE BERKELE

### ANNOUNCES.

In this issue of the Record we have the announcement of Mr. Eugene Berkeley, for the Republican nomination for Assessor at the coming primary in August next. Mr. Berkeley is well and popularly known throughout the county, especially in the Bryantsville section where he has lived all his life. He is an ardent republican and has worked faithfully for his party since he reached his majority. He has many friends in the Republican ranks who will pull hard for his nomination and election, and feel if so honored will make a good official.

### WANTS MONEY

To Maintain Forces For Protection

President Wilson appeared before congress Monday afternoon and asked for authority to place the United States in a state of "armed neutrality" to resist the German submarine menace. Continued invasion of the plain rights of neutrals in high seas, further sacrifices of American lives and ships, the intolerable blockade of American commerce--almost as effectual as if the country were at war--have taken the place of a dreaded "overt act" which was expected to shock the world--and have forced the President into the next step toward war. President Wilson, asking to be empowered to take whatever steps are necessary, which includes the arming of ships, the conveying of merchantmen by war vessels or what other steps are necessary, made it plain again that he wanted peace, but not at the price of American lives and rights or by driving the American flag from the sea. With a full realization of the solemnity of the occasion the President took his action with the calm confidence that Congress and the country will stand behind him.

With Many Changing Hands At Fabulous Prices.

Ford  
THE UNIVERSAL CAR

320,817

Have been built and actually delivered to retail buyers since August 1, 1916.

These figures--320,817--represent the actual number of cars manufactured by us since August 1st, 1916, and delivered by our agents to retail buyers. This unusual fall and winter demand for Ford cars makes it necessary for us to confine the distribution of cars only to those agents who have orders for immediate delivery to retail customers, rather than to permit any agent to stock cars in anticipation of later spring sales.

We are issuing this notice to intending buyers that they may protect themselves against delay or disappointment in securing Ford cars. If, therefore, you are planning to purchase a Ford car, we advise you to place your order and take delivery now.

Immediate orders will have prompt attention. Delay in buying at this time may cause you to wait several months.

Runabout \$345. Touring Car \$360. Coupelet \$505. Town Car \$595. Sedan \$645, f. o. b. Detroit. HASELDEN BROS.

If the high cost of white paper interferes, love letters can be just as silly on any other color.

Is the "Laconia crisis" the expected "Overt Act"? You needn't answer, we are just asking for rhetorical effect.

England has evidence of the extreme state of things in Germany and Austria, according to Lord Robert Cecil, Minister of Blockade. He said there had been many food riots and clothing and boots are being made from paper.

Since the break in diplomatic relations with Germany the United States has displayed more real, genuine patriotism than at any time since the Spanish-American War. The stars and stripes are flying from many buildings in our cities, and a feeling of intense uncertainty prevails. In this connection it should be mentioned that it is surprising how few people know the words of the "The Star Spangled Banner," our national anthem. Many do not even know who wrote it and amid what surroundings. It should be taught in every school room and children of every age should know it.

The Kentucky farmers will be hurt by the wheat and oats crop shortages.

## IT'S GREAT

When you see the clear rays of the rising sun as it peeps over the hill, and breath that air that refreshes clean to your toes and you hear that Spring Bird sing Chid-a-ling—Chid-a-ling You take off your coat and set your hat far back on your head and step between the plow handles and listen to the echo from hill to hill as it says Whoa-haw. Git-up. You well know that green grass will soon be plenty and the old churn will be filled with rich cream, so when the dasher is put in motion, she will say Je-ru-se-lam, then you have what you want.

It's great boys. —It's great."

#### Horses Must Rest

Your excessively large, horse-drawn equipment costs you money for upkeep on working and non-working days. Stabling, feed, veterinary bills go on all the time—and for steady service all day you must have extra equipment to give the horses a rest.

#### Expense Stops

Smith Form-a-Truck costs nothing to maintain when it is not working. Stop the motor and the expense stops until you start it up again. There is no non-production expense. And the actual cost

of maintenance when Smith Form-a-Truck is running is not only far less than for horses, but less than for any other form of hauling or delivery.

#### A Big Guarantee

And you can put Smith Form-a-Truck at work in a few hours. Simply attach it to any Ford, Maxwell, Buick, Chevrolet, Dodge Bros., or Overland power plant. The truck construction is permanent—fully guaranteed—the mechanical equal of the highest priced truck you can buy.

### CANT DO THE WORK.

It's too much to try to work every day against a constant, dull backache, or sudden darting pain in the small of the back. Be rid of it. Try Doan's Kidney Pills. Your neighbors recommend them.

Parker Jenkins, stationary engineer, Water Works Road, Lancaster, says: "My work calls for a lot of stooping and bending and this caused my kidneys to get out of fix. I had dull pains across my back and loins. My kidneys acted too frequently and then again were sluggish, and the secretions contained a brick-dust-like sediment. I used Doan's Kidney Pills, that I bought at R. E. McRoberts' Pharmacy. The backache left me and my kidneys became normal."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Jenkins had. Foster-Milburn Co., Props., Buffalo N. Y.

been postmistress here for some years. The wedding was received here as a very great surprise, as she left here saying that she was going to the Inauguration. This couple have been sweethearts for a number of years.

Mrs. Sallie Cumley, died at the home of Mrs. Sallie Scott on last Thursday after an illness of bronchial pneumonia. Mrs. Cumley had made her home with Mrs. Scott for many years and will be greatly missed in that home as well as in the entire neighborhood. The deceased was 54 years old and a daughter of the late John Todd. Burial occurred in the Goshen cemetery Saturday afternoon after short services by J. C. McClary.

A very great surprise was had here Saturday afternoon when it became known the Interior Journal had changed hands. S. M. Saulley who has been Editor of the paper for something like seven years, has never allowed an opportunity to pass that would enable him to raise the standard of this paper. He was ever "on the job" and has a host of friends who regret to see him leave the I. J. The owners of the Interior Journal now are E. C. Walton and Jas. H. Wright. Mr. Walton, who sold this paper to Mr. Saulley, is widely known and is being given a hearty welcome back to Stanford, where he has spent the greater portion of his useful life. Mr. Wright came to this place some years ago from Lebanon Tenn., and up until a short time ago owned and operated one of the best bluegrass farms in Lincoln county. It goes without saying that these two men will give the people the best that they have. Mr. Saulley has not decided what he will do but it is hoped by his many friends that he will not leave this community.

EUGENE BERKELE

## TO THE REPUBLICANS OF GARRARD COUNTY.

I am a candidate for the Republican nomination for Assessor at the primary to be held August 4th 1917.

I have always lived at Bryantsville, Garrard county, and been a life long republican. My father, Wm. Berkele, worked for the republican party and for Garrard county all his life, having served the county as Magistrate, member of the Legislature and delegate to the late Constitutional Convention of the state of Kentucky. I have been a farmer all my life, and if elected I will do my best to serve the people according to law and to the best of my ability.

**HARVEY HELM AND MISS BRUCE WED.**

Hon. Harvey Helm, of Stanford, Congressman from this district, and Miss Mary Bruce, also of Stanford, were quietly married in Lexington Tuesday morning, in the parlors of the Phoenix hotel and left immediately for Washington. The ceremony was performed by Rev. B. J. Bush, pastor of the Second Presbyterian church of that city. The wedding was witnessed by Mrs. H. J. McRoberts and Miss Annie D. McRoberts of Stanford and Col. W. P. Walton, of Lexington. The bride is a charming young woman and has many friends in this city and county who will wish both bride and groom a happy journey through life.

He wants work and is competent to do it and will appreciate your patronage.

## FOUR CARS FORDS

Arrangements were effected by wire today with the Ford Motor Co., at their branch house in Cincinnati by which Haselden Brothers placed their order for, and are to receive Four Car loads of Ford Automobiles, consisting of Touring Cars and Coupes.

This is the largest single order ever placed by this firm and amounts to approximately \$10,000, the entire number to come in these four cars all being sold to parties in Garrard County.

It is absolutely necessary that Haselden Brothers have signed orders, for Ford Cars before they can have any assurance of delivery, and the Ford Motor Co., being assured of the fact, immediately wired their acceptance of their order for the Twenty-four Automobiles. The Ford Co., promised to make delivery as rapidly as they can secure cars in which to make shipments.

## OLD MULE SELLS FOR \$2.50 Three Days Later Brings \$50.00

That mules are advancing rapidly in the Giles neighborhood in this county, is evidenced by a trade that was made there last week. The facts in the case were about these, and Walter Locker, who lives in that neighborhood, is responsible for it. Louis McCulley owned a mule, and we judge a very old one, that he sold to Wiley Burton for \$2.50. Burton is known as a very thrifty trader and always sells at a profit, anything he buys. He interested Henry Teater in the mule and sold it to him for \$3.00. In the meantime a great demand developed in this neighborhood for these popular hybrids and Teater soon found another sale for his mule in the person of Joe Gill, whom he persuaded to buy the mule at a price said to have been \$50.00. Teater is \$47.00 to the good and we presume the way other mules have advanced around here that Joe Gill got a bargain after all.

## KAUFFMAN RESOLUTIONS

## BEATS HIS ALARM CLOCK TO IT NOW

Pressman Jumps Out of Bed With Old Time Vigor.

## TANLAC GAVE HIM NEW ENERGY

When the alarm clock rang this morning did you bound out of bed, eat a good breakfast and leave "at" and ready for your work?

Not if you felt like Edward E. Schwandt, pressman, 3200 Tampa ave-

EDWARD E. SCHWANDT.

nue, Cleveland, used to feel. Here is the story in his own words:

"The last year was a trying one for me. My health had been steadily on the down grade. Often it would be 1 or 2 o'clock before I could go to sleep. I got up in the morning almost as tired as when I went to bed.

"During the day my stomach bothered me. After eating I had a heavy bloated feeling. I was tired all the time and didn't have any ambition. My nerves were upset. My body ached. At times my feet were so sore I could hardly bear my weight upon them.

"I couldn't get relief. Finally I tried Tanlac and right then and there I began to get better. My worries are all over now. I go to bed and never wake up until morning. My aches have left me. I have a splendid appetite and am able to satisfy it, too—no food disagrees with my stomach.

"I am glad to say a good word for Tanlac and honestly believe that it will do for other people what it has done for me."

Tanlac is being introduced in Lancaster at R. E. McRoberts.

Tanlac may be obtained in the nearby cities. Paint Lick, J. N. Metcalf; Bryantsville, Becker & Ballard; Little Hickman, Collier and Bruner; Berea, S. E. Welch; Stanford, Penny's Drug Store; Junction City, Reynolds and Evans; Richmond, H. L. Perry & Son; Crab Orchard, Lyne Bros.; Burgin, G. T. Schoolfield; Danville, John S. Wells, Lancaster, R. E. McRoberts, and W. C. West, Silver Creek. (Adv)

## THE McROBERTS DRUG CO.

Atlanta has, in R. W. McRoberts, of the McRoberts Drug company, 26 Luckie street, one of the youngest men in America to head a large wholesale drug business. When Mr. McRoberts organized his company three years ago he was but twenty-seven years of age. Starting with practically nothing, by dint of hard work and earnest application he has built up one of the finest businesses in the south. Three years ago all deliveries to the local druggists were made by one lone negro on a bicycle. Today they are made by three large high-powered automobile trucks and instead of buying bottles a case at a time as in the early days, they now arrive in carload lots. Such remarkable development can only be attributed to splendid business acumen, hard work and complete sympathy between company and dealer combined to a degree that is seldom found nowadays. The McRoberts Drug company have always put the dealers interest foremost. They are the only house in this section of the country dividing their profits with the druggists. This co-operative system enables their customers to buy considerable cheaper than elsewhere and in many cases for even less than they could get the same goods from a manufacturer. The McRoberts Drug company are the exclusive distributors of several well known lines. They are also distributors of all kinds of druggists sundries, chemicals, glassware, patent medicines, etc. R. W. McRoberts is president and treasurer; R. E. McRoberts is vice president, and J. B. Mason is secretary.—Atlanta Constitution.

Mr. Benjamin Holtzelaw passed away at his home here Sunday, aged 75. He had been ill only a short time with bronchial pneumonia. He is survived by his wife, who was Miss Emily Willis, also four brothers and one half brother. After short services at the late home by Mr. J. C. McClary, of Stanford, a concourse of sorrowing relatives and friends followed the remains to their last resting place in the old Ashlock burying ground, near Dick's river, on the Lancaster and Stanford pike where the last sad rites of interment occurred. Deceased was an uncompromising Republican, a strict member of the Christian Church and a gentleman whom everybody liked. He served as a soldier in the Union army through the Civil war. May the soil lie gently on his grave.

**THE STAR SPANGLED BANNER.**  
 By Francis Scott Key.  
 O say, can you see, by the dawn's early light,  
 What so proudly we hail'd at the twilight's last gleaming,  
 Whose broad stripes and bright stars through the perilous fight  
 O'er the ramparts we watch'd were so gallantly streaming?  
 And the rocket's red glare, the bomb bursting in air,  
 Gave proof through the night that our flag was still there,  
 O say, does that Star Spangled Banner yet wave  
 O'er the land of the free and the home of the brave?  
 On the shore, dimly seen through mists of the deep,  
 Where the foe's haughty host in dread silence reposes,  
 What is that which the breeze o'er the towering steep,  
 As it fitfully blows, half conceals, half discloses?  
 Now it catches the gleam of the morning's first beam,  
 In full glory reflected now shines in the stream,  
 'Tis the Star Spangled Banner! O long may it wave  
 O'er the land of the free and the home of the brave!  
 And where is that band who so vauntingly swore,  
 That the havoc of war and the battle's confusion,  
 A home and a country should leave us no more?  
 Their blood has wash'd out their foul footsteps' pollution.  
 No refuge could save the hireling and slave  
 From the terror of flight or the gloom of the grave,  
 And the Star Spangled Banner in triumph doth wave  
 O'er the land of the free and the home of the brave.  
 O thus be it ever, when freemen shall stand,  
 Between their lov'd home and the war's desolation!  
 Blest with vict'ry and peace, may the heav'n rescued land  
 Praise the power that hath made and preserved us a nation!  
 Then conquer we must when our cause it is just,  
 And this be our motto: "In God is our trust!"  
 And the Star Spangled Banner in triumph shall wave  
 O'er the land of the free and the home of the brave!  
 Francis Scott Key, lawyer and poet, wrote "The Star Spangled Banner" on the back of an envelope during and after Fort McHenry's successful defense of Baltimore from the British fleet in September 1814.

**Fill In Picture Puzzle No. 4**

WELL, children, the last picture you made was that of the animal called man's most faithful friend, the horse. It is true that today the automobile is doing much of the work that the horse once did for man. But, children, you do love a fine horse, don't you? Many rich people who own automobiles also keep their horses to go riding. Now, if you let your pencil run again from 1 to 2, 3, 4, etc., you'll find that you'll have a picture of one of the queerest looking animals in the world.

We will gladly print the names of all children who will take the pains to trace out the above picture. You will find it interesting and they will appear in every issue of the Record from this date. Who will be the first to send his or her name?

All the contestants must clip out the picture after being traced and mail to the Central Record, that we may see how well the work has been done.

# DISEASE OF CABBAGE.

**Careful Seed Selection Has Produced a Variety Resistant to Yellowing.**

Successful cabbage growers near Clyde, O., after six years' trials in co-operation with the Ohio experiment station have obtained strains resistant to yellowing disease, or fusarium wilt. The All Seasons variety has shown the least tendency to this disease, and it also possesses qualities demanded by the kraut industry. Plants have been selected for seed which have shown the strongest growth and the greatest freedom from disease.

This procedure in combating cabbage yellowing has proved far more successful than soil sterilization and other direct control methods, growers say. Under conditions of continual attack by disease certain plants develop characteristics that ward off ravages of such parasites. By continual careful selection and propagation desired types are produced that thrive even where disease is abundant, while common varieties die or else yield poor returns.

The especially resistant strains of the All Seasons cabbage have been named the Clyde Series Nos. 1 to 7. Nos. 1, 2 and 4 have proved most resistant. Within a year or two the experiment station expects to distribute the seed of these strains to growers.

# TOMATO GROWING PAYS ON THE GENERAL FARM

By C. C. BOWSFIELD.

One of the greatest of the money making commodities is the tomato. This product is important enough to be considered by farmers generally.

While tomatoes are classed as garden products, I prefer to look on them as a field crop worth the best efforts of all farmers. W. A. Carr, an expert tomato grower of Minneapolis, has had a yield as high as 600 bushels per acre. As tomatoes are worth \$1.50 to \$2 a bushel, this rate of earnings puts them in a class by themselves.

Mr. Carr advises people who have no greenhouses to start the plants in hotbeds made out of storm windows and rough lumber. Barn manure can be used for heat. Starting early, he gets an early crop, and that's where

Being in demand for canning purposes as well as for universal table use when fresh picked, tomatoes have become recognized as a leading staple. Few garden products are so widely used, and it would be hard to name one that pays better. Illustration shows tomato pickers at work.

the big money is. He relates his experience in this way:

"I plant tomato seeds Feb. 10 in shallow boxes in the greenhouse, making a trench a half inch deep with the edge of a trowel and dropping the seeds in it one-half inch apart. The trenches are one and one-half inches apart. I scatter fine dirt over the seed with a sifter and then spread a damp cloth over the box and leave the seed to germinate, which takes five or six days. When the plants have two or three leaves they are transplanted to the hotbed, either being planted directly in the soil or else in cheap wood or boxes, four inches each way and four inches deep, with loose bottoms. The boxes are convenient for the second transplanting, but I am undecided whether they are worth the time and trouble. If these boxes are not used a clump of dirt six inches in diameter is taken up with the plant when it is transplanted out of doors, which takes place as soon as the danger of frost is over. By this time the plants are in blossom and sometimes the fruit has begun to appear. Great pains must be taken with this second transplanting. A good way to do is to dig trenches four feet apart and place the plants in the trench four feet from each other, tamping the ground firmly about the roots. Water should be used in this transplanting, especially if the soil is a little dry. Most of the dirt that was thrown out of the trench is left lying to be turned in by the cultivator, by which time it is warmed by the sun and will hasten growing.

"The chief enemy to watch in tomato growing is blight, which will make itself apparent when the ends of the leaves turn brown and wither. This can be successfully overcome by spraying with bordeaux mixture. I usually dip my plants in a weak solution before the second transplanting and then aim to give them a second spraying. Don't be afraid of getting it on the fruit. It won't injure it."

The market opened this morning very much stronger than it closed on Friday. We sold the past week

## A TITLED NURSE

Awarded a Silver Medal by the King of Italy.

### HELPED MESSINA REFUGEES.

The Mother of Two Sons, the Duchess of Aosta is One of the Chief Inspectors of Italian Red Cross and Personally Nursed Sick Soldiers.

The King of Italy has awarded the silver medal for military valor to the Duchess Helene of Aosta, whose husband is a lieutenant general in the Italian army. Although a daughter of the Bourbon-Orleans house, the duchess is an English princess, having been born at Twickenham and married at Kingston-Thames. She is noted both for her beauty and her intelligence. She

DUCHESS OF AOSTA.

has been associated with the Italian Red Cross on the battlefield in two wars and in the terrible Messina earthquake.

The military medal goes to her not only for her bravery in caring for wounded soldiers under fire, but for nursing those suffering from cholera since the beginning of the Italian campaign against Austria. She has been active in Red Cross work in the present war since Italian troops took the field and now is one of the chief inspectors of the organization in Italy and a wonderfully energetic worker, who permits nothing to interfere with her war duties.

The Duchess Helene saw active service in 1911, when she went to Tripoli with Italian troops and took charge of the Red Cross units there. She was also one of the first to carry aid to the sufferers of the Messina disaster and stayed among the refugees until all had been provided for.

The duchess is the daughter of the Count of Paris, head of the Bourbon-Orleans family, whose secretary she was as a girl. She was married in 1895. Her elder son, the Duke of Apulia, was only seventeen years old when the war began and was a student at a military school. He enlisted as a private soldier and won his corporal's stripes on the battlefield.

Her second son, the Duke of Spoleto, is only fifteen and frequently accompanies her to the front when she goes to inspect hospitals.

#### Blarney Stones.

One cupful sugar, one half cupful butter, one cupful milk, one and one-half cupfuls flour, one cupful chopped walnuts, one cupful chopped raisins, one half cupful sour milk, two eggs, one-quarter teaspoonful cloves, one teaspoonful cinnamon, one-quarter teaspoonful nutmeg, one teaspoonful soda and one teaspoonful vanilla. Cream butter and sugar, add eggs, milk and extract, stir into dry ingredients and beat thoroughly. Drop by spoonful on to greased pan and bake a delicate brown.

#### Soldier Blue to Replace Navy.

Soldier blue is seen just now so often that it seems probable this softer, more becoming shade may in time wholly supersede the dark marine tone. Partly because of dye shortage, partly because anything remotely resembling military dress is almost sure of success, this color is being used a great deal and a very pleasant change it makes. Organdie blouses trimmed with fine white lace collars and cuffs, silk dresses and street suits are all to be found of soldier blue.

#### Graham Muffins.

Graham muffins made with baking powder. One cupful graham flour, one cupful of flour, one-quarter cupful sugar, two teaspoonfuls baking powder, one teaspoonful salt, one cupful milk, one egg well beaten, one tablespoonful melted butter. Sift together thoroughly the flour, sugar, baking powder and salt. Add gradually the milk, egg and butter. Bake in hot buttered gem pans twenty-five minutes.

## BUENA VISTA

I wish to say that Robert Ogg and Reuben Naylor are still single, but that they want the young ladies to know that they are candidates for matrimony.

First Patent flour. The best 18 the cheapest. Hudson, Hughes & Farnum.

McMurtry and Blakeman Bros. have put Polly's bend on the map by purchasing real "Fords" for their families. McMurtry said that "wife dear, would be to have one".

The Buena Vistians feel bereaved by the loss of Mr. J. E. Scott and family who have moved to Harrodsburg. However by the loss of Mr. Scott and family we gain a new store and other business improvements in Buena Vista.

If Buena Vista could produce all other crops equal to the out put of meales for the past month, our land would bring \$1000 per acre. Our neighborhood has turned out 100 boys and girls in the past four weeks who will be immune to this pest during the remainder of their lives.

Mrs. J. B. Rubie who is spending the winter in Florida is in very poor health. Her husband is soon to join her in their winter home in St Petersburg. We all hope that Mrs. Rubie may soon be much better, and that neither of them is deceived by a Florida alligator.

Cupid shows signs of his return to our neighborhood before we have even begun to look for the blue bird, in the marriage of our young men and women. I am glad to say that Mr and Mrs Wm. Naylor look real happy, and if "John Riley" is married he surpasses even Cupid himself in "loves adoring glances".

The farmers of this vicinity are all rejoicing over the soaring prices received for tobacco and other farm crops. If these prices hold good, we may soon look to find Kentucky's staples waving in the public roads and even in the back yards. Onions will make a splendid flower garden when the perfumed bulbs are worth seven dollars per bushel.

We are more successful in getting any kind of epidemic scattered generally among our people than we are in collecting poll tax. Our trustees often find it necessary to make trips to Lancaster to remind the Sheriff that forty young men have not paid this poll tax, but we never have to remind the heads of families that there is a case of any contagious disease in our midst. That reaches them before it is thoroughly developed.

Our school is now approaching the close of its fourth year. The teachers say that this is to be the best commencement program in the history of the school. We are now thoroughly convinced that the wagons are essential part of our school. There is no more gratifying sight than to see them all loaded with happy laughing boys and girls. The farmers are so prosperous now that they are willing for their boys and girls to have something just a little better than their grandparents had.

## Cold Sores and Fever Blisters

are only outward manifestations of the inflammation of the mucous surface that lines the lungs, the stomach and all the digestive tract, but they give you evidence of how sore a membrane may become as a result of inflammation, which is stagnation of the blood, rightfully called acute catarrh.

If you suffer from such conditions don't let them become chronic, don't run the risk of systemic catarrh.

## Clear it Up With PERUNA

When your system is cleared of all its poisons, the membranes soothed and healed, the cold gone and your digestion restored, you will enjoy life, feel equal to all its tasks, and be at peace with the world. Let Peruna do for you what it did for this sufferer:

Mrs. L. A. Patterson, 238 Utah Avenue, Memphis, Tenn. says:

"I have been a friend of Peruna for many years. I have used it off and on for catarrhal complaints and found it a very excellent remedy. I have a small family of children. Times are hard with us, but I can scarcely afford to do without Peruna, especially during the season of the year when coughs and colds are prevalent. We always recommend Peruna to our neighbors, for the benefit it has been to us."

You needn't suffer longer with such a remedy at hand.

Peruna can be obtained in tablet form. You can carry it with you and take it systematically and regularly for a remedy, or as needed for a preventive. Get a box today.

## COM-CEL-SAR

THE GREAT ROOT AND HERB MEDICINE.

Bright and Happy Childhood Restored to Health Through The Use of COM-CEL-SAR.

Dear Sirs:

I wish I could make other men understand how grateful I feel for the great benefit COM-CEL-SAR and your Cheyenne Indian Remedies have been in my family. Both of my boys were weakly, puny, sickly, troubled with worms, fever, cough, catarrh, constipation, complaining of terrible pains in all parts of the little bodies, indigestion and their little stomachs would float terribly. We had tried every thing we could hear of; nothing did any good, when we began using COM-CEL-SAR. You cannot know the joy we felt when both boys began to have refreshing sleep, pains stopped, indigestion stopped. They began to play, look rosy cheeked and gained flesh, worms quit bothering them; in fact they were like different boys altogether. My wife has derived wonderful results from the Roots and Herbs, in fact we are herbalists now, using nothing but Root and Herb medicine in the home.

Yours Truly,

(Grocer) 733 Vine St. Louisville, Ky.

Geo. M. Guelda.

The human mind can never fully ramify the depths or heights of the mighty power of Nature. Through Nature we have our being, Nature provides feed, clothing, air, water, sunshine for the maintenance of life and for disease, Nature supplies the only rational, successful and radical cure through Roots and Herbs. It is not guess work empiricism, but is a proven fact, as attested by Mr Guelda and hundreds of others who have been cured.

Then, why will you neglect the chance to cure yourself when it can be done so easily by the use of the God given Roots and Herbs. Neighbors and friends, there is no longer room for doubt in the mind of any sane person, no question as to the tremendous power to overcome disease poses by our wonderful Cheyenne Indian Remedies and COM-CEL-SAR.

Will you suffer or will you be healed? This question is put directly to you reader, and it applies not only to you, but to those who are dear to you. It applies to every member of the human race with awful force, for disease is the greatest enemy of mankind and Roots and Herbs is the only successful weapon you can secure. Livery Stable or Garage for 1917. Centrally located next to Hotel. Mrs. Rella Arnold Francis

### Good Manners Can First.

To be a gentleman does not depend upon the tailor or the toilet. Good manners count for more than good clothes.—Bishop Doane.

### Eventually Got Wife.

There are few men who have escaped waking up eventually to what a wonderful woman they have had all along for a wife.—Baltimore Sun.

### Bird Statistics.

The files of the United States department of agriculture contain more than 1,000,000 cards concerning the distribution and migration of North American birds.

### Roundabout Conclusion.

"It's an extended corridor that has no ultimate termination," mused the absent-minded professor, as he patiently plodded around the revolving doorway.—Jack o' Lantern.

### Well Supplied.

"There goes that big financial speculator, and how well he looks. He is certainly holding his own." "Yes, and a lot of other people's."—Baltimore American.

### Inevitable Result.

The car turns turtle just when the driver is feeling certain that gasoline mixed with whisky makes 60 miles an hour as safe as it is delightful.—Louisville Courier-Journal.

### Nutmeg Test.

When buying nutmegs choose small ones; they have a better flavor than large nuts. To test a nutmeg prick with a needle. If good the oil will instantly spread round the puncture.

### Evil Always There.

There is evil in every human heart, which may remain latent, perhaps, through the whole of life; but circumstances may arouse it to activity.—Hawthorne.

### To Keep Mice Away.

To keep mice away, one of the simplest and at the same time most effective plans is to place lumps of camphor in the cellar or cupboard they infest.

### Daily Thought.

A wet rag goes safely by the fire; and if a man is blind he cannot expect to be much impressed by romantic scenery. A part from this many lovable people miss each other in the world or meet under some unfavorable star.—Stevenson.

### Awful Possibility.

After a long drought there fell a torrent of rain, and a country gentleman observed to Sir John Hamilton: "This is a most delightful rain; I hope it will bring up everything out of the ground." "By Jove, sir!" said Sir John, "I hope not; for I have buried three wives."—London Tit-Bits.
